II. Security Policies, Procedures and practices

Our company adheres to the guidelines of the "Custom Trade Partnership Against Terrorism" (CTPAT) program, this program was established by the United States government and its main objective is to maintain a secure supply chain involving all business partners. Our company has a great commitment to meeting each of the criteria established by the CTPAT program. This commitment, among other things, requires that our business partners answer this questionnaire to be aware of the security levels they have, as is the loading process, types of inspections, storage, security seals, information systems, access controls, among others. As our customers are an important and critical part of our operation, the main purpose of the program is to completely bridge the logistics process and ensure that the merchandise reaches its final destination safely. We are pleased to be part of your business and are looking to work under a safe environment within the supply chain. Do not hesitate to contact us if you have any questions about the security program.

Likewise, an attached document will be sent with the minimum-security criteria of the CTPAT program. Or you can consult it on the following website: <https://www.cbp.gov/border-security/ports-entry/cargo-security/ctpat-customs-trade-partnership-against-terrorism/apply/security-criteria>
